Dr. Liu received the B.Eng. degree in automation and the D.Eng. degree in electronic information from Southeast University, Nanjing, China, in 2020 and 2025, respectively. He joined Hohai University in 2026.

Dr. Liu is a recipient of several prestigious awards and honors, including the **2025 Top 10 Scientific and Technological Advances in Jiangsu Province (Electronic Information Sector)** awarded by the Jiangsu Association for Science and Technology. In the last five years, he has secured more than RMB¥100k worth of externally funded projects. He is currently co-supervising a full-time PhD student at HHU on a variety of topics about automated vehicles, cooperative guidance, and maritime search and

rescue.

Dr. Liu is currently serving as an **active reviewer** for top-tier journals including *IEEE/CAA Journal of Automatica Sinica*, *IEEE Transactions on Systems, Man, and Cybernetics: Systems*, *IEEE Transactions on Industrial Informatics*, and *IEEE Transactions on Neural Networks and Learning Systems*. He serves as an **active reviewer** for leading conferences such as the *IEEE Conference on Decision and Control (CDC)*, *American Control Conference (ACC)*, and *European Control Conference (ECC)*. He served as **Special Session Co-Chair** of several flagship international conferences including ISCSIC 2026.

Dr. Liu's research interests include cooperative and intelligent control theory and its applications in multi-agent systems and automated vehicles. He has published **15+** fully-refereed papers in prestigious journals and leading conferences. Among his first/corresponding-authorized publications, **9** are high-quality journal articles, including **2** articles in *Automatica* and *IEEE Transactions on Automatic Control* (the two best journals in the area of automatic control) and **4** articles in the other *IEEE Transactions* and *Magazine* (the most prestigious journals in the fields of engineering and computer science).

Dr. Liu's research work has been cited **70+** times with **h-index** of **6** and **i10-index** of **3** according to *Google Scholar*, **40+** times with **h-index** of **5** according to *SCOPUS* and **30+** times with **h-index** of **4** according to *Clarivate Analytics Web of Science Core Collection*.
